

Cooperation Agreement

On behalf of **HowAid Foundation** we would like to thank **Nyoda Initiatives** for undertaking cooperation with us. Being a part of this project is a proof how little is needed to help another person, so we hope that your action will be an inspiration for others.

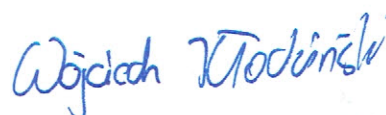

We are so happy that Nyoda Initiatives is ready to start action in the name of making life better for these who need the spirit of compassion, because sometimes we lack it in our world. We believe that in our cooperation we will be able to accomplish our goal - to provide healthy, normal conditions for children in the poorest regions of the world.

We have to remember how hard the topic of social and civilizational inequality is. Therefore, we are more grateful that Nyoda Initiatives guided by the noble spirit of philanthropy is able to work to remove it. Your attitude shows that there is both the sensitivity to the problems of third world countries and a willingness to take the fight with those problems.

We look forward to fruitful cooperation between HowAid and Nyoda Initiatives.

Nicholas Odima Odongo
Project Coordinator Nyoda Initiatives

Wojciech Klodziński
Founder of foundation HowAid
